## Metric System

Go to your Account tab at the top right hand side of the page.

Go to Settings or Account Information. You will find the particulars of your account information here; name, address, timezone, etc.

Page down to below map. Directly under the timezone you will see a box for "Measurement System." Select either Metric or US Customary.

Go to the bottom of the page and click "Save Settings".

The screenshot shows the Farmbrite account settings page. The left sidebar contains navigation links: Schedule, Tasks, Livestock, Crops, Resources, Accounting, Market, Contacts, Farm Map, and Reports. The main content area is titled "Farmbrite Plan" and "Complete Plan". It contains fields for Farm Name (Copperdale Gardens), Address (444 Copperdale Ln), City (Golden), Country (United States), State/Province (Colorado), and Postal Code (80403). Below these is a "Tagged Location" map showing a red pin on a satellite view of a rural area. Under the map are fields for Latitude (39.9199164) and Longitude (-105.3787529). The "Timezone" dropdown is set to "(GMT-07:00) Mountain Time (US & Canada)". Below this, the "Measurement System" dropdown is highlighted with a green box, showing options for "US Customary" and "Metric". The "Accounting Categories" dropdown is also visible, showing "Metric" as the selected option. At the bottom, there are fields for "USDA Hardiness Zone", "Average Last Frost Date", and "Average First Frost Date".
