

# Livestock Dashboard

Last Modified on 01/19/2026 7:29 am MST

The Livestock Dashboard page is your main access hub to all of your animal records. If you have created or imported any animals already, you'll see them listed here. You can always return to this page to find and access them, and make edits or perform actions on them. You can also use many different filters to find the exact animals you are looking for, and a helpful statistics bar is shown at the top that reflects your animal counts by type, gender, and more. You can even work with multiple animals at once by using the bulk actions feature incorporated into this page.

**To get started, just click Livestock in the main menu.** You'll be brought here immediately.

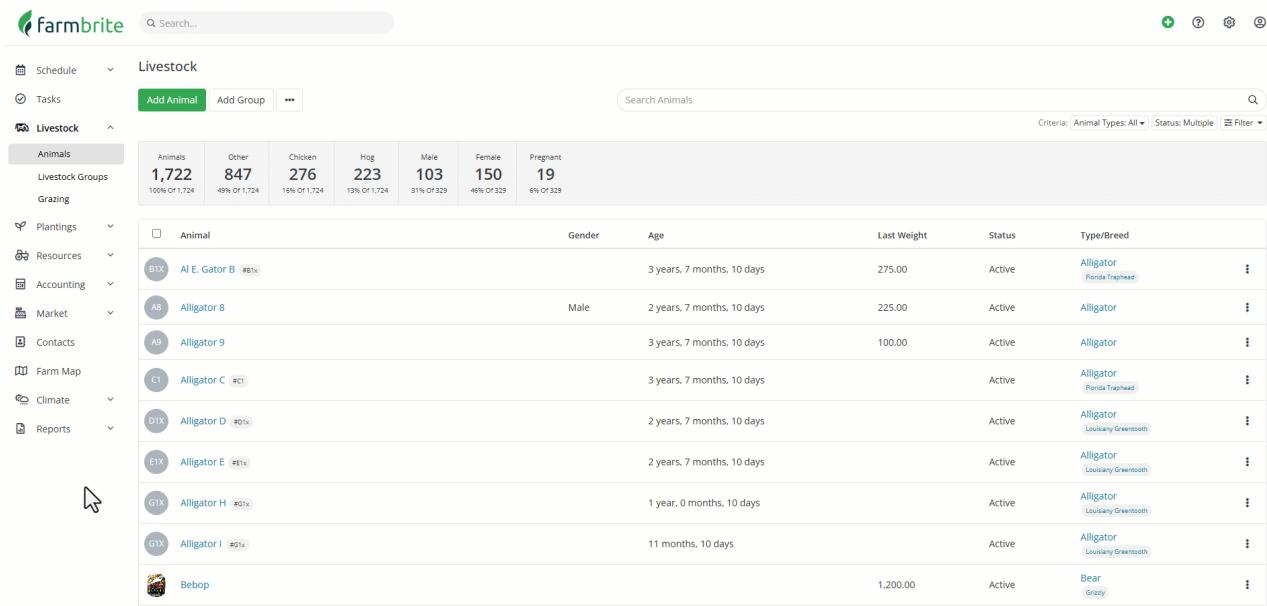

The screenshot shows the Farmbrite Livestock Dashboard. The sidebar on the left is collapsed, showing categories like Schedule, Tasks, Livestock (selected), Plantings, Resources, Accounting, Market, Contacts, Farm Map, Climate, and Reports. The main content area includes a weather forecast for Golden, Colorado, showing a current temperature of 63°F and a 24-hour forecast from 1PM to 6PM. It also displays a list of top upcoming tasks, including 'Fertilize with NitroBoost 4-0-5' and 'Weed the field and beds', both due on Aug. 11, 2025. A 'RECENT ORDERS' chart is visible on the right side.

## Creating Animal Records

**If you have never been to this page previously, you'll first see the opportunity to add new animal records at the top.** You can accomplish this in four ways:

1. Adding animals individually - Click the button to **Add Animal** and you'll be able to add details about a single new animal.
2. Adding animals in bulk - Click the ellipsis actions button and then select **Bulk Add animals** to add basic data about up to 15 animals at a time.
3. Adding animals via import - Click the same ellipsis actions button and choose **Import records** to supply a spreadsheet of animal data and create up to 1000 animals at once.
4. Adding animals in a Set group - You can use the New Group button to **create Set groups**, which could be useful for animals you track as a unit like chickens, fish, and bees.

The choice between these is entirely up to you, and you can use a combination of all of these however you see fit for your needs.

The screenshot shows the Farmbrite Livestock Dashboard. The left sidebar has a 'Livestock' section with 'Animals' selected, showing a summary table with counts for Animals (1,722), Other (847), Chicken (276), Hog (223), Male (103), Female (150), and Pregnant (19). Below this is a grid of animal records. Each record includes a thumbnail, name, tag number, gender, age, last weight, status, and type/breed. For example, 'AI E. Gator B' is a Male Alligator (Florida Traphead) aged 3 years, 7 months, 10 days, with a last weight of 275.00. The grid has a header row and 10 data rows. A cursor is visible on the far left.

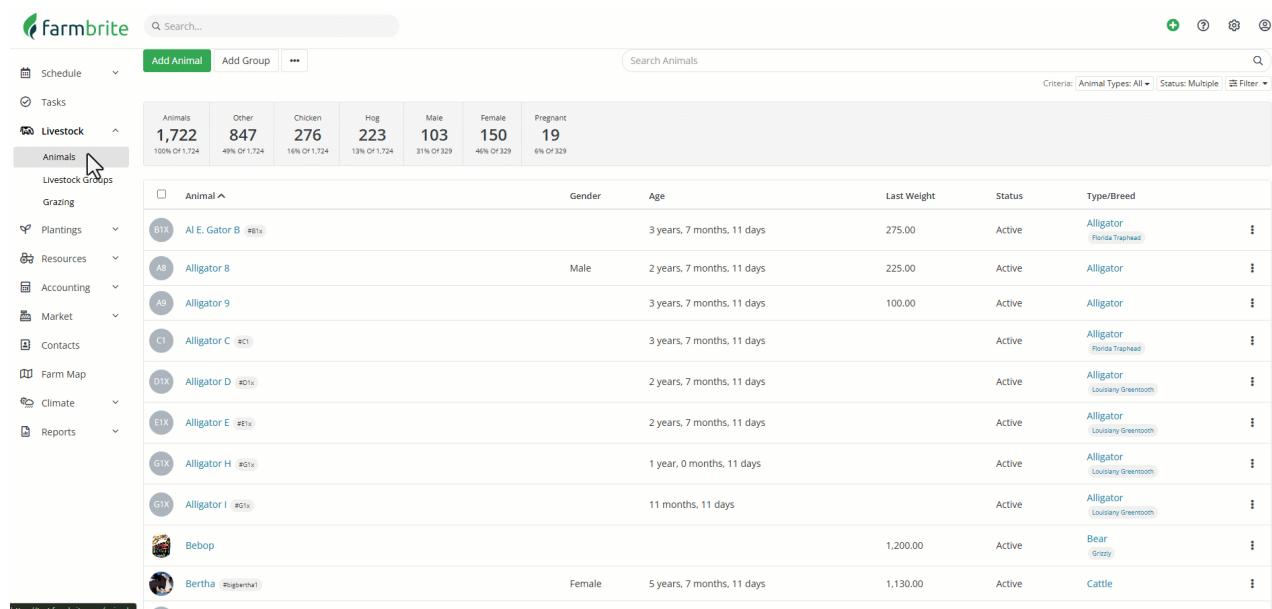

Animals	Other	Chicken	Hog	Male	Female	Pregnant
1,722 100% Of 1,724	847 49% Of 1,724	276 16% Of 1,724	223 13% Of 1,724	103 31% Of 329	150 46% Of 329	19 6% Of 329

Animal	Gender	Age	Last Weight	Status	Type/Breed
B1X AI E. Gator B #B1x		3 years, 7 months, 10 days	275.00	Active	Alligator Florida Traphead
A8 Alligator 8	Male	2 years, 7 months, 10 days	225.00	Active	Alligator
A9 Alligator 9		3 years, 7 months, 10 days	100.00	Active	Alligator
C1 Alligator C #C1		3 years, 7 months, 10 days		Active	Alligator Florida Traphead
D1X Alligator D #D1x		2 years, 7 months, 10 days		Active	Alligator Louisiana Greenback
E1X Alligator E #E1x		2 years, 7 months, 10 days		Active	Alligator Louisiana Greenback
G1X Alligator H #G1x		1 year, 0 months, 10 days		Active	Alligator Louisiana Greenback
G1X Alligator I #G1x		11 months, 10 days		Active	Alligator Louisiana Greenback
Bebop			1,200.00	Active	Bear Grizzly

## Viewing Animal Records

Now that you have created some animal records, you'll see them displayed when you access the **Livestock Dashboard**. Each animal displays important information at-a-glance, like name, breed, tag numbers, status, and a lot more. You'll also see an Actions menu icon on the right to access additional features for each animal; you can modify the animal's basic information, and record notes, treatments, measurements, and yields, and more. You can click on the name of the animal to view or edit it.

You can sort the items in the grid by clicking on any of the column headers. An arrow next to the column header indicates that column is being sorted and in what direction the data is ordered. If you have a lot of animals, you may need to page through the list to find the one you're looking for. Use the paging buttons at the bottom right of the grid to move between pages of animals.

The screenshot shows the Farmbrite Livestock Dashboard. The left sidebar has a 'Livestock' section with 'Animals' selected, highlighted with a yellow box. Below this is a grid of animal records. Each record includes a thumbnail, name, tag number, gender, age, last weight, status, and type/breed. For example, 'Bertha' is a Female Cattle aged 5 years, 7 months, 11 days, with a last weight of 1,130.00. The grid has a header row and 10 data rows. A cursor is visible on the far left.

Animals	Other	Chicken	Hog	Male	Female	Pregnant
1,722 100% Of 1,724	847 49% Of 1,724	276 16% Of 1,724	223 13% Of 1,724	103 31% Of 329	150 46% Of 329	19 6% Of 329

Animal	Gender	Age	Last Weight	Status	Type/Breed
B1X AI E. Gator B #B1x		3 years, 7 months, 11 days	275.00	Active	Alligator Florida Traphead
A8 Alligator 8	Male	2 years, 7 months, 11 days	225.00	Active	Alligator
A9 Alligator 9		3 years, 7 months, 11 days	100.00	Active	Alligator
C1 Alligator C #C1		3 years, 7 months, 11 days		Active	Alligator Florida Traphead
D1X Alligator D #D1x		2 years, 7 months, 11 days		Active	Alligator Louisiana Greenback
E1X Alligator E #E1x		2 years, 7 months, 11 days		Active	Alligator Louisiana Greenback
G1X Alligator H #G1x		1 year, 0 months, 11 days		Active	Alligator Louisiana Greenback
G1X Alligator I #G1x		11 months, 11 days		Active	Alligator Louisiana Greenback
Bebop			1,200.00	Active	Bear Grizzly
Bertha #Bertha	Female	5 years, 7 months, 11 days	1,130.00	Active	Cattle

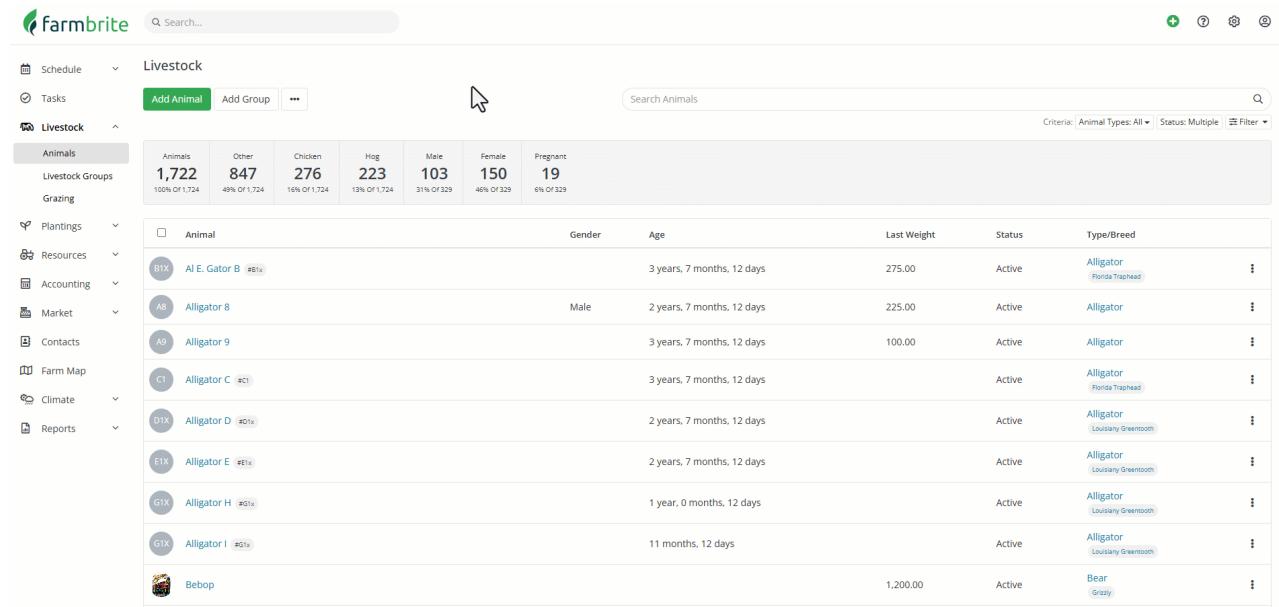

## Searching and Filtering

You can filter and search your animal records to find just the ones you are looking for. You'll see a search bar in the upper right, and you can use it to look for animals based on many different data points like name,

tag numbers, electronic IDs, animal type and breed, or even the keywords you associate with animal records.

You can also access the filters menu in the upper right to refine your livestock list based on animal type, breed, gender, status, and dozens of other filter criteria. You'll use this in combination with each the to whittle your list to just the specific animals you are looking for.

Be aware that the search overrides the filters, so you can always use the search to find animals that do not meet your filter criteria. When you want to go back to your full list, you can select to reset or clear the filters. Reset restores the defaults, like seeing active statuses and not sold, butchered, and archived. Clearing removes all filters and shows all of your records without any filters applied.

Animals	Other	Chicken	Hog	Male	Female	Pregnant
1,722	847	276	223	103	150	19
100% Of 1,724	48% Of 1,724	16% Of 1,724	13% Of 1,724	31% Of 329	46% Of 329	6% Of 329

<input type="checkbox"/> Animal	Gender	Age	Last Weight	Status	Type/Breed
B1X AI E. Gator B #B1X		3 years, 7 months, 12 days	275.00	Active	Alligator Florida Traphead
A8 Alligator 8	Male	2 years, 7 months, 12 days	225.00	Active	Alligator
A9 Alligator 9		3 years, 7 months, 12 days	100.00	Active	Alligator
C1 Alligator C #C1		3 years, 7 months, 12 days		Active	Alligator Florida Traphead
D1X Alligator D #D1X		2 years, 7 months, 12 days		Active	Alligator Louisiana Grentooth
E1X Alligator E #E1X		2 years, 7 months, 12 days		Active	Alligator Louisiana Grentooth
G1X Alligator H #G1X		1 year, 0 months, 12 days		Active	Alligator Louisiana Grentooth
G1X Alligator I #G1X		11 months, 12 days		Active	Alligator Louisiana Grentooth
Bebop			1,200.00	Active	Bear Grizzly

## Bulk Actions

You can also use the bulk actions on the page to work with multiple animals at the same time. This might be a great way to take a note, add a task, or record treatments for several unique individual animals. Just check the boxes next to the animals you'd like to work with, and you'll see a bulk Actions menu shown at the bottom of the page. You can choose as many animals as you need, or Select All to pick all of them on the page. Note that you'll work with a single page of animals at a time; you cannot select animals from multiple pages. However, you can absolutely use the filters we referenced above to find just the animals you are looking for, and then work with them in bulk from the first page!
