

How do I download transactions from Farmbrite?

Last Modified on 08/08/2021 12:57 pm MDT

From the bottom of the list of transactions on the main Accounting page you can also Download Transactions for the current year you're viewing. Simply click the "Download [YEAR] Transactions" button at the bottom left of the grid.

This will download a CSV file with the following information:

- Date
- Type
- Amount
- Vendor
- Category
- Description

The screenshot shows the Farmbrite Accounting interface. At the top, there's a search bar and user information. The main content area is titled "2021 Summary" and features a line chart for "2021 INCOME VS EXPENSE" and a box for "2021 EXPENSE CATEGORIES" which is empty. Below the charts, there's a "Record a Transaction" button and a search bar. A summary bar shows "Date: This Year", "Revenue: \$12,500", "Expenses: \$0", and "Profit: \$12,500". Below this is a table of transactions with columns for DATE, PAYEE, CATEGORY, TYPE, and AMOUNT. A single transaction is listed: "Aug. 08, 2021", "Gene Thornton", "Sales of livestock, produce, grains, and other products you raised", "Income", and "\$12,500.00". At the bottom left of the table, there is a "Download Transactions" button highlighted with a red box.

DATE	PAYEE	CATEGORY	TYPE	AMOUNT
Aug. 08, 2021	Gene Thornton	Sales of livestock, produce, grains, and other products you raised	Income	\$12,500.00
