

How do I see weather forecasts in Farmbrite?

Last Modified on 05/03/2024 12:29 pm MDT

Planning ahead for unique weather conditions is critically important to your agriculture business. You'll need to take different actions based on what mother nature is sending your way, and you might need to prepare in advance to be sure you can handle the changes. Maybe you'll need to be ready to cover your crop in the event of an early frost, or schedule an extra watering during a dry spell. Just the opposite, perhaps it is forecasted to rain and you'll need to plan a day of indoor work; sounds like a perfect opportunity to get some of your [backlogged tasks](#) done! You might also use the forecast to adjust and reschedule upcoming [events](#).

When you first log in to Farmbrite, your dashboard will present a lot of helpful information, including a weather forecast. First, be aware that the forecast is generated based on the address associated with your Farmbrite account. You can update this in your [Settings](#) if you'd like to default your dashboard to displaying weather for a different location.

The screenshot shows the Farmbrite dashboard interface. At the top left is the Farmbrite logo. To its right is a search bar. Further right are links for 'Quick Add', 'Account', 'Chris', and 'Help'. A left-hand navigation menu lists various dashboard sections: Schedule, Tasks, Livestock, Plantings, Resources, Accounting, Market, Contacts, Farm Map, and Reports. Below the navigation menu, there are four alert boxes: '1 Inventory Alert', '9 Overdue Tasks', '1 Upcoming Appointment', and '5 Locations Ready to Graze'. The main content area is titled 'WEATHER FOR AURORA' and features a '58°F' temperature display with a sun icon. Below this, it shows 'Clear Sky - H 83°F L 58°F', 'Sunset: 7:25PM', 'Wind: 8 mph', and 'Humidity: 36%'. A 'Feels like 55°F' and '1-Hr Precip: 0mm' are also shown. An hourly forecast table is displayed with tabs for 'Hourly', 'Daily', and 'Map'. The hourly forecast shows temperatures increasing from 58°F at 7AM to 81°F at 12PM, with wind speeds and 0% precipitation.

Hourly	Daily	Map			
7AM	8AM	9AM	10AM	11AM	12PM
58°F	61°F	67°F	73°F	79°F	81°F
8mph	6mph	1mph	3mph	5mph	7mph
0%	0%	0%	0%	0%	0%

An hourly forecast will be displayed, so if you're logging in to Farmbrite in the morning you'll have a good idea of what to expect throughout the coming hours. You can select the tab for Daily instead, which will then display the forecast for the upcoming days. A map can also be selected, with choices to overlay precipitation, pressure, wind, and temperature data.
