# Reporting on Livestock Treatment Records

Last Modified on 12/22/2021 3:14 pm MST

Your browser does not support HTML5 video.

You can easily see a list of all the treatment records you've added to Farmbrite by running a Livestock Treatments and Vaccinations Report. You'll be able to search through your records and filter them by date, and then print or download them to a spreadsheet. Farmbrite will also display an easy to read graph of your treatment records, showing how many you've entered per day, and what type they are.

To start reviewing your treatment and vaccination records, navigate to **Reports** in the left navigation menu, and then select **Treatments and Vaccinations under the Livestock column**.

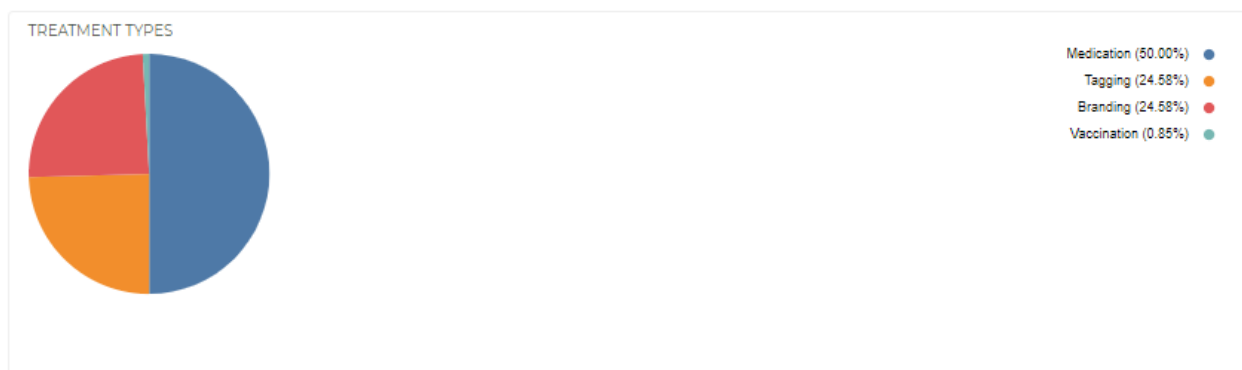

You'll first see two graphs at the top of the page. You'll find a chart displaying your treatment record count over time on the left. This will help you see how many treatments have been recorded, and on what days.

On the right, you'll find a pie chart breaking down the treatments by type.

TREATMENT TYPES

Medication (50.00%) ●
Tagging (24.58%) ●
Branding (24.58%) ●
Vaccination (0.85%) ●

If you want to further filter your results, you can search using keywords, or select a different date range to only see treatments administered within a specific timeframe. Be sure to click **Update** on the right to filter your results after setting your date range.
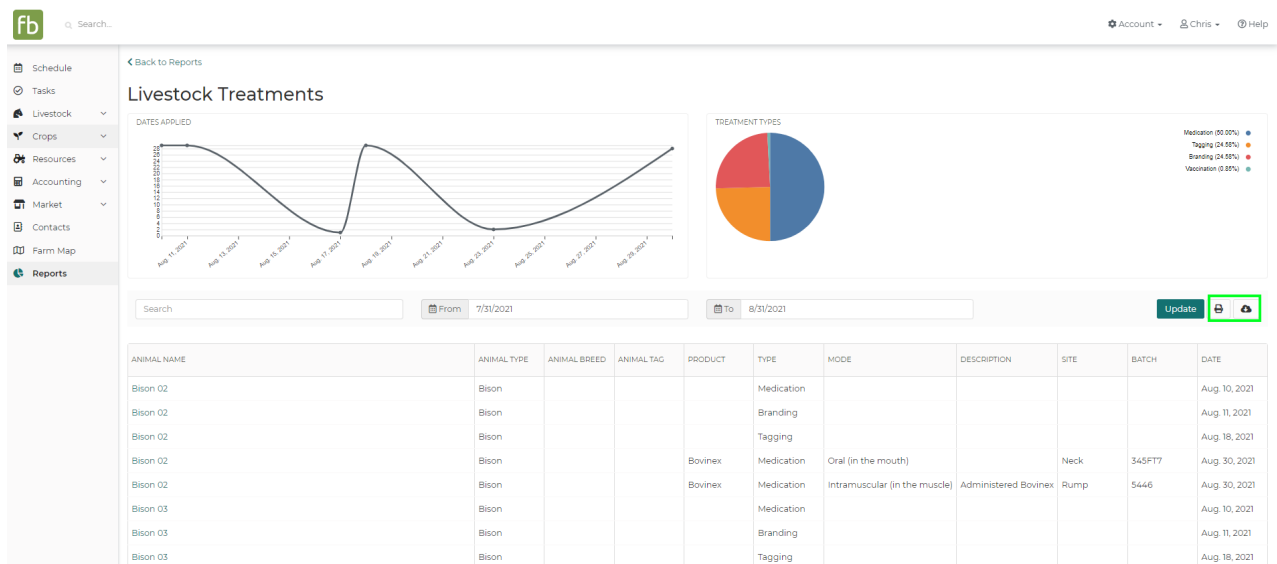

bovinex			From 7/31/2021		To 8/31/2021		Update 🖨 ☁			

ANIMAL NAME	ANIMAL TYPE	ANIMAL BREED	ANIMAL TAG	PRODUCT	TYPE	MODE	DESCRIPTION	SITE	BATCH	DATE
Bison 02	Bison			Bovinex	Medication	Intramuscular (in the muscle)	Administered Bovinex	Rump	5446	Aug. 30, 2021
