

Moving Inventory

Last Modified on 04/13/2026 3:39 pm MDT

You might need to move some of your inventory from time to time - maybe you're doing some reorganizing of your storage area and found a better way to organize your goods, or perhaps you've built a new building and need to move some inventory there to take advantage of your new space. You'll easily be able to accomplish the inventory transfer in Farmbrite with just a few clicks.

First, find the inventory item you want to move by **navigating to Resources, selecting Inventory, and clicking on the item you'd like to move.**

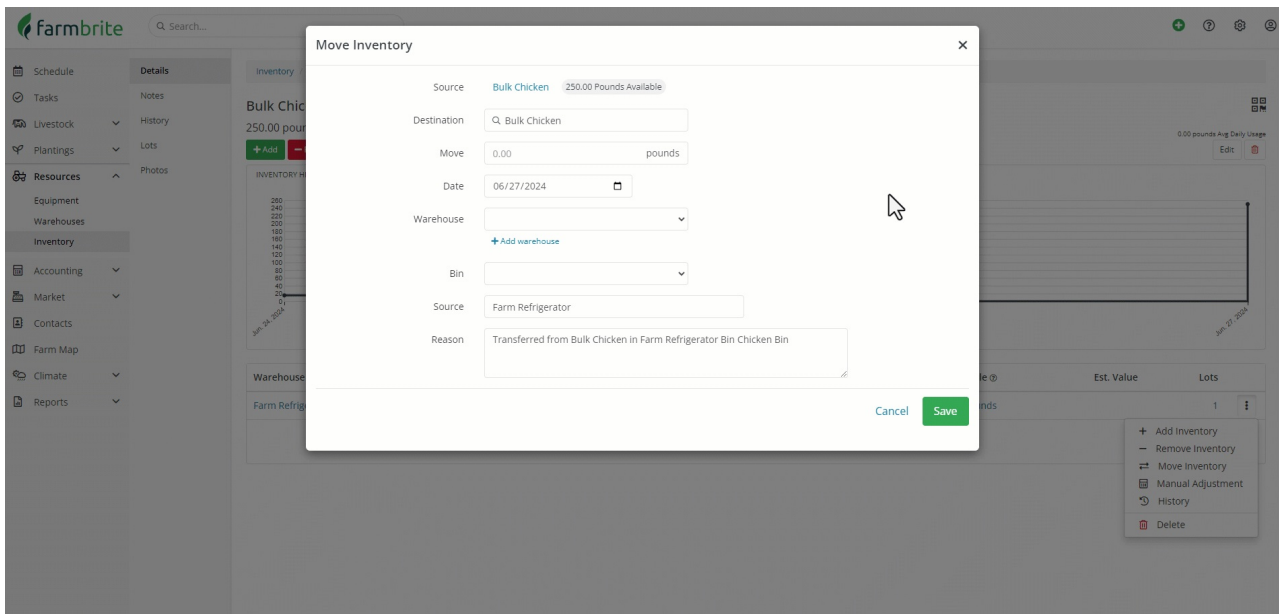

The screenshot shows the Farmbrite dashboard. On the left is a navigation menu with options like Schedule, Tasks, Livestock, Plantings, Resources, Accounting, Market, Contacts, Farm Map, Climate, and Reports. The main content area includes a weather widget for Littleton, CO, showing a temperature of 67°F and an Air Quality Alert. Below the weather is a 'TOP UPCOMING TASKS' section with two tasks: 'Move Bison to Pen B' and 'Weed Flower Bed B'. To the right is a 'RECENT ORDERS' section with a bar chart and an 'INCOME VS EXPENSE' section with a line graph.

You'll see all of the locations where this item is currently stored. Find the storage location that you want to transfer from, and **click the Move Inventory button** on the right. If you're storing the inventory item in lots and want to move a specific lot number, you can choose the Lots menu to pick a specific one as well, which will retain the lot number when you move it.

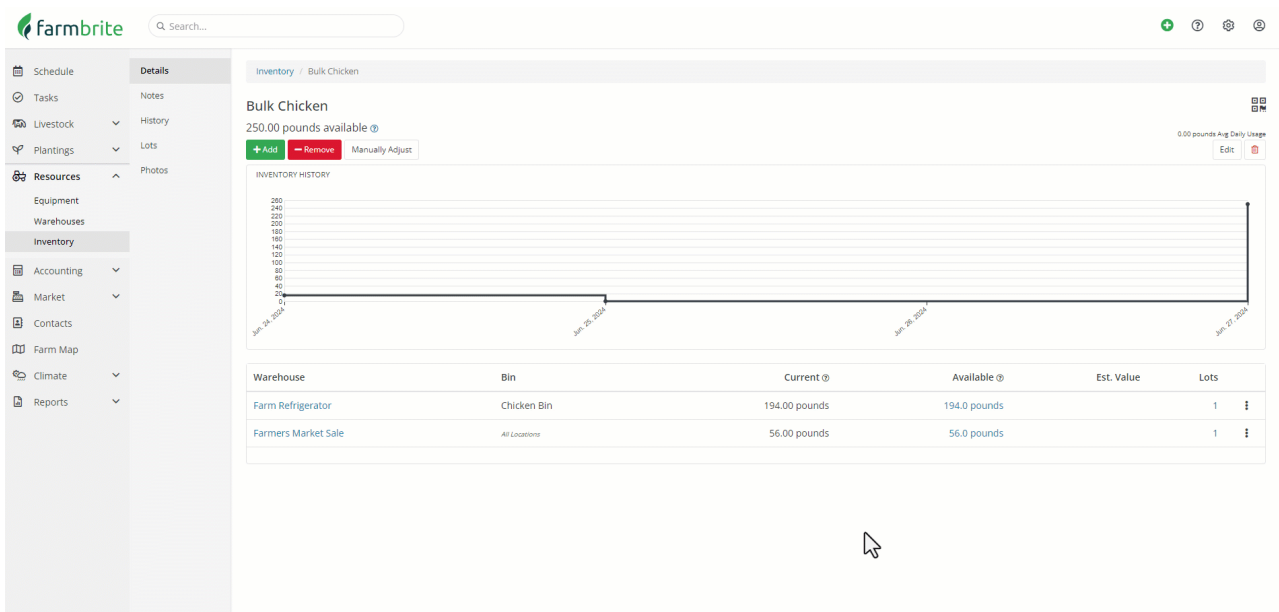

The screenshot shows the 'Bulk Chicken' inventory details page. The page title is 'Bulk Chicken' and it shows '250.00 pounds available'. There are buttons for '+ Add', '- Remove', and 'Manually Adjust'. Below this is an 'INVENTORY HISTORY' section with a line graph showing inventory levels over time. At the bottom is a table with columns: Warehouse, Bin, Current @, Available @, Est. Value, and Lots. The table has one row: Farm Refrigerator, Chicken Bin, 250.00 pounds, 250.0 pounds, and 1 lot.

Warehouse	Bin	Current @	Available @	Est. Value	Lots
Farm Refrigerator	Chicken Bin	250.00 pounds	250.0 pounds		1

Provide the quantity you'd like to move, and where to move it to. This may be a simple change of bin, or a move to a completely different warehouse.

You can also optionally select a different item to move the inventory it. Perhaps you are making a feed mix, or in our example below, we are moving items from our bulk chicken storage to separate different portions.

You can also view the history of the warehouse, bin, and item that is removed or added to see the logs of what happened and when.
