

Viewing Inventory in Bins

Last Modified on 05/03/2024 12:55 pm MDT

After you've [created warehouses and bins](#), and [added items to your inventory](#), you can view what you have stored in those bins by navigating to the warehouse. You'll see your bins listed at the top of the page, and each will show you a visual summary of what's stored in it. The summary is shown based on your max capacity of the bin, displaying how much of the bin storage is already taken.

In our example below, we can see our Westside Storage Barn with 5 bins. Note that if you have multiple different inventory items in a bin, they will be shown in separate colors to help distinguish them. You can hover over any of them to see the total for that item. Bins 2, 3, and 4 have reached capacity, but Bins 1 and 5 have a small amount remaining.

The screenshot shows the Farmbrite interface for the 'Westside Storage Barn'. The left sidebar contains navigation options: Schedule, Tasks, Livestock, Plantings, Resources (Equipment, Warehouses, Inventory), Accounting, Market, Contacts, Farm Map, Climate, and Reports. The main content area displays the 'Westside Storage Barn' with an 'Add Bin' button and 'Edit Warehouse' and '+ Add Inventory' buttons. Below this, there are five bins, each with a visual bar chart showing the inventory items and their quantities. The 'All Inventory' table below the bins lists the items and their quantities.

Bin Name	Inventory
Bin 1	Jalapeno Peppers, Asparagus, Green Stalks, Carrots
Bin 2	Broccoli
Bin 3	Peppers (Hot), Thai Dragon
Bin 4	Cucumbers, Pickly Cuc
Bin 5	Limes, Tomatoes, San Marzano (San Marzano), Dill

Inventory	Quantity
Asparagus . Green Stalks	24.0 pounds
Broccoli	115.0 pounds
Carrots	20.0 pounds
Cucumbers, Pickly Cuc	50.0 pounds
Dill	7.0 pounds
Jalapeno Peppers	5.0 pounds
Limes	6.0 pounds
Peppers ((Hot)), Thai Dragon	50.0 pounds

Be aware that Farmbrite let's you add items beyond the max capacity of the bin. If you do this, you might not see all of the items in the bin shown in the percentage bar. A "!" icon will be displayed alerting you to this. If you need to increase the max capacity, just select the bin and add a larger amount. Below you'll see that we actually fit more pounds of broccoli than expected in bin 2, so we increased the maximum to give us a better visual representation of it's capacity.
