

Getting Started with Products

Last Modified on 04/13/2026 3:47 pm MDT

The Products section of your Farmbrite Market is where you'll set up the items you have for sale. This could be anything - produce, meat, dairy products, baked goods, herbs and spices, wool and fiber, CSA shares and memberships, and so much more. Your options are basically limitless!

The Products Homepage is your starting point for working with your products. You'll find many options here, including:

- Creating products
- Importing products
- Adding details and images to your products
- Deleting products
- Searching your product list

To get to your Product Homepage, navigate to **Market** in the left menu, and choose **Products**.

You will immediately see a list of any products you've already created. You search, filter, and sort your products to easily find what you're looking for.

- If you have many products, you might find it helpful to **use the Search** in the upper right to find the particular product you're looking for.
- You can **filter the page** to find products in specific categories or in certain statuses.
- You're able to **change the order of the products displayed** by clicking the column headers. This will help you organize your Product Homepage by category, SKU, or product name. You might even sort by Product Status to see your sold out and back ordered products grouped together. You can click the column name a second time to switch between ascending and descending order as well.

The screenshot shows the Farmbrite interface. At the top, there's a search bar and navigation links for 'Quick Add', 'Account', 'Chris', and 'Help'. The left sidebar menu includes 'Schedule', 'Tasks', 'Livestock', 'Plantings', 'Resources', 'Accounting', 'Market', 'Dashboard', 'Products', 'Online Store', 'Orders', 'Pickup Locations', 'Contacts', 'Farm Map', and 'Reports'. The 'Market' section is expanded, showing 'Products' as the active view. A 'New Product' button is located at the top left of the product list. The product list table has the following data:

At the bottom of the table, it says 'Displaying all 8 products' and 'Download all Products'.

Pro Tip: If you have a lot of items to add, you can use the [import feature](#) to add them in bulk.

You can **click on any of your products to view additional details and actions** for the item. You can edit these details, add images, review and create orders, and view your inventory history from this page. We're adding an image to our hot sauce below so our customers can see it in our Online Store.

This screenshot shows a different view of the Farmbrite Products page. The 'Products' section is highlighted in the sidebar. The table lists 12 products:
