Whether you're just getting started or need a refresher, our tutorials cover every essential aspect of the software. You'll find step-by-step guides on tasks like **importing your data** so you can hit the ground running, **setting up and managing your farm tasks** to stay organized, and **creating and tracking livestock records** to ensure you have accurate and up-to-date information on your livestock crops or both.

For farmers planning their growing season, we also have tutorials that guide you through the **seasonal planning tools**, helping you efficiently manage planting schedules and crop rotation. Additionally, our tutorials cover how to **manage your farm's inventory** so you can track supplies, equipment, and materials. You'll also get detailed instructions on **managing your farm's financials**, from budgeting and expense tracking to generating reports that give you a clear overview of your farm's financial health.

These tutorials are short and designed to get you up and running quickly, ensuring that you feel confident navigating the software. Plus, they're available on demand, so you can watch them whenever you need them, at your own pace. After watching some of the videos, you can test your newfound Farmbrite knowledge with this quick quiz. *We are thinking about making more of these for other topics and areas of the software, so if you find this useful please reach out to us and let us know!*

Start exploring our video tutorials today and discover how easy it is to take control of your farm's operations, streamline your workflow, and boost productivity with our software!
