

Purchase Increments

Last Modified on 05/02/2025 11:12 am MDT

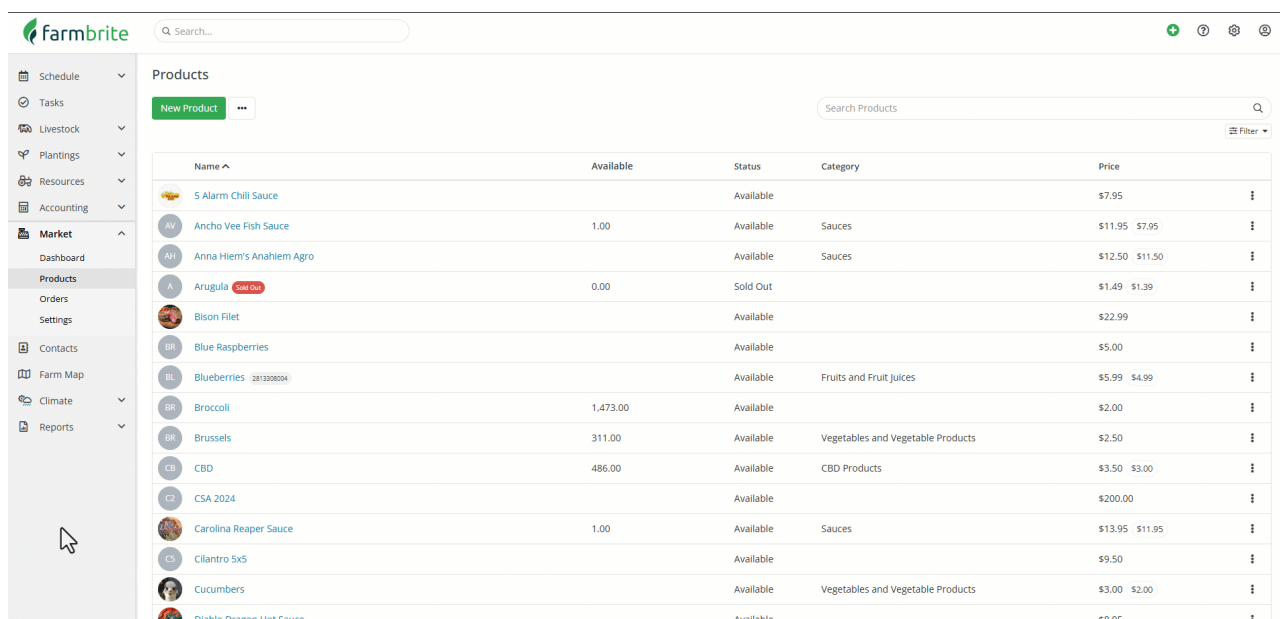

Do you sell items like produce and meat by weight? If so, perhaps you have them prepackaged into specific weights, like half or quarter pound packages that your customers can request. Or, maybe you weigh and package your products based on exactly how much the customer asks for, down to the tenth of a unit. No matter how you sell your items, you can set a Purchase Increment on each individual product to be sure you offer it at the right quantities in your online store.

Note: You can always sell whatever quantities and increments you'd like in your Point of Sale or Admin orders that you enter manually. This setting is specifically used to determine the increments your customers can purchase in your Online Store.

To configure this option, navigate to the Products section of the Market, and select the product you'd like to work with. You'll see an option for Purchase Increment in it's setup. By default the increment is one (a whole unit), but you can update your increment to any of the following:

- 1 - Only whole numbers can be purchased, no decimals places for partial units.
- .5 - Only half units can be purchased (e.g. 0.5, 1, 1.5, 2, 2.5, etc.)
- .25 - Only quarter units can be purchased (e.g. 0.25, 0.5, 0.75, 1, 1.25, 1.5, etc.)
- .1 - Only tenth units can be purchased (e.g. 0.1, 0.2, 0.3, etc.)

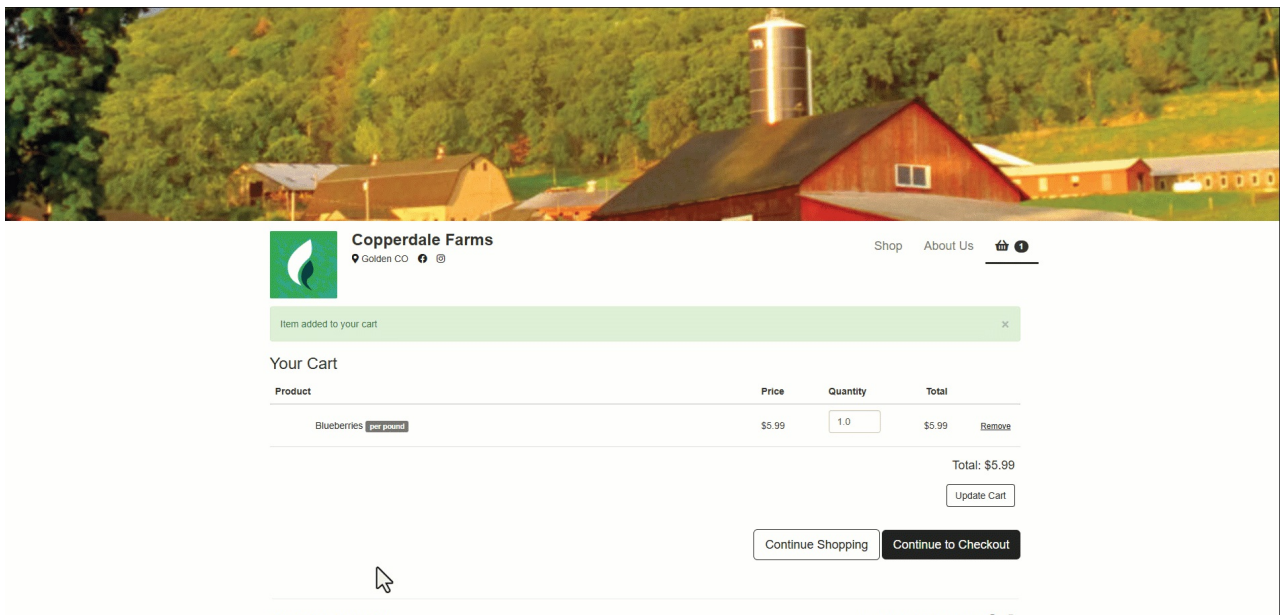

In our example below, we set up our blueberries to be sold in half pound increments.

The screenshot shows the Farmbrite interface with a sidebar on the left containing navigation links: Schedule, Tasks, Livestock, Plantings, Resources, Accounting, Market (selected), Dashboard, Products, Orders, Settings, Contacts, Farm Map, Climate, and Reports. The main content area is titled 'Products' and includes a 'New Product' button and a search bar. A table lists various products with columns for Name, Available, Status, Category, and Price. The 'Blueberries' product is highlighted, showing an available quantity of 281330204 and a price of \$5.99. The table also shows other products like '5 Alarm Chili Sauce', 'Ancho Vee Fish Sauce', 'Anna Hiem's Anahiem Agro', 'Arugula', 'Bison Filet', 'Blue Raspberries', 'Broccoli', 'Brussels', 'CBD', 'CSA 2024', 'Carolina Reaper Sauce', 'Cilantro 5x5', 'Cucumbers', and 'Diablo Dragon Hot Sauce'.

Name	Available	Status	Category	Price
5 Alarm Chili Sauce		Available		\$7.95
AV Ancho Vee Fish Sauce	1.00	Available	Sauces	\$11.95 \$7.95
AH Anna Hiem's Anahiem Agro		Available	Sauces	\$12.50 \$11.50
A Arugula	0.00	Sold Out		\$1.49 \$1.39
B Bison Filet		Available		\$22.99
BR Blue Raspberries		Available		\$5.00
BL Blueberries 281330204		Available	Fruits and Fruit Juices	\$5.99 \$4.99
BR Broccoli	1,473.00	Available		\$2.00
BR Brussels	311.00	Available	Vegetables and Vegetable Products	\$2.50
CB CBD	486.00	Available	CBD Products	\$3.50 \$3.00
C2 CSA 2024		Available		\$200.00
Carolina Reaper Sauce	1.00	Available	Sauces	\$13.95 \$11.95
C5 Cilantro 5x5		Available		\$9.50
Cucumbers		Available	Vegetables and Vegetable Products	\$3.00 \$2.00
Diablo Dragon Hot Sauce		Available		\$8.95

Now when our customers add the blueberries to their cart, they can increase their purchase at these increments. The cart will also prevent them from ordering a increment that is not supported by that product. Notice the error message displayed when they try to purchase 3.25 in the image below.

Let us know if you have any questions about using these increments in your online shop!
